DishDrawer® Expanded

Fisher & Paykel is launching the next product for their Tomorrow's Kitchen range.

Tomorrow's Kitchen represents the heart of our home, a kitchen where appliances will keep up with our ever changing lifestyles. All products of Tomorrow's Kitchen are 90cm wide and are easily to install. Tomorrow's Kitchen already features CoolDrawer, a multi-temperature cooling drawer; CookSpace, a multi-function oven; CookTop, an induction hob; and VentSurface, a clever and automatic rangehood.

Based on the DishDrawer® concept, the new, wider 90cm dishwasher has all the benefits of DishDrawer®: the ergonomic drawer design, 9 wash programmes including delay start and eco options, key lock, child lock and a flexible racking system.

DishDrawer® Wide allows for 9 place settings including larger plates up to 315mm and large bowls with its fold-and-slide system. Small cups or tall mugs can easily be accommodated with the height-adjustable racks. Additional, handy features include a multi-purpose clip to hold plastic lids or large platters in place, as well as knife clips.

DishDrawer® Wide is a single dishwasher and is available in integrated or sleek EZKleen stainless steel. DishDrawer® Wide is 478mm high and can be easily integrated in modern kitchen designs.
